

## CHUCK PIERCE'S WORD FOR AUSTIN AND THE STATE OF TEXAS

June 20, 2002,

This city (Austin) was once prophesied in Argentina that this would be the first city of true transformation in our nation.

"And that came from some of the Argentines. And yet every time this city starts moving forward, it's as if scattering occurs and there's a stop put on it. I want to tell you it could be that God is saying right now it is time for this city to move forward and that this city itself will be a sign to our nation one way or the other. Now what I want us to understand is the light's about to get lighter and the dark's about to get darker.

### A SIGN OF HAIL UPON THE STATE OF TEXAS

And the spirit of God said I am sending a sign of hail upon this state [Texas] Now hear me, now write this down because we're people that don't understand signs and we don't know how to move in signs. And He said I'm sending, I'm going to start sending a sign of hail on this state in the next two months.

He said—"when you see hail fall in your city, know that it is time for the heavens and the atmosphere to change. And He said also at that time declare where hell on earth has controlled your city, declare to hell --that the hail from heaven is a change that it is losing, {it} is a sign that is about to lose it's authority in your city. Declare it is a time for change and that everything hell is holding captive in your city, the resources both physical as well as material that have been held back and robbed from the church, declare that both will start being let go. This is a key time. I am changing the atmosphere of heaven even now over this state. Watch for the changing and watch for the signs and move accordingly saith the Lord. "

"I have received numerous reports from all over Austin regarding prayer ministries and their response as it hailed this past Wednesday night in Austin. Tonight (Monday) I am receiving emails from intercessors in El Paso that El Paso received hail last night. They used the prophetic words from Chuck as strategy and declaration for the entire city."
